

Hydraulic presses made to customer specifications

A press park is available for all your needs with power from 50 Tonnes to 1,500 Tonnes

Dear Customer

in this difficult period for everyone, although we are special builders of commissioned presses, we offer our press fleet for your work needs.

We have a dedicated work area with various presses completely regenerated and updated with dimensional characteristics and powers from 50 tons to 1,500 tons able to satisfy the most varied working needs.

In the event that there is a request to produce small batches, samples, extra productions, mold tests, etc. but we do not have a suitable press, we can decide together the best collaboration formula.

We remain at your disposal for any clarification, do not hesitate to contact us.
